

REMARKS

As an initial matter, the undersigned wishes to thank the Examiner for a telephone interview on February 19, 2008. During the interview, alleged informality of Claim 18 was discussed. In addition, appropriateness of the Title was also discussed during the interview. It was agreed during the interview that no amendment was required.

Claims 1-13 and 18-19 are pending in this application. Claim 19 has been amended to remove a reference to variable Y which is not present in the formula.

Claims 1-13 and 18-19 are allowed.

Specification

The Office Action requested a new title is required that is clearly indicative of the invention to which the claims are directed. During the interview, the Examiner noted that while most of the claims are directed to an electrode, Claim 18 was directed to an electronic device and Claim 19 was directed to a composition. Accordingly, the Examiner stated that no amendment to the Title was needed.

Claim Objections

Claim 18 is objected to for allegedly being informal. In particular, the Office Action alleges Claim 18 is incomplete and should refer back to Claim 1.

During the telephone interview, the Examiner acknowledged no amendment to Claim 18 was needed.

CONCLUSION

In view of the foregoing, it is submitted that all claims now pending in this Application are in condition for allowance. Therefore, an early Office Action to that effect is earnestly solicited.

Respectfully submitted,
